## ABOUT

I'm a Business Consultant who is in the crypto world since 2014 and loves to be part of the blockchain revolution. I know Planning & Strategy is part of my nature, but marketing & data analytics is the main piece of success & differentiation, that's why I specialize on it.

I lived in the USA, Brazil, Finland and England where I worked and improved my languages and studies. I consider myself an extremely adaptable, curious & rational person with great analytic power which combined with my creativity is really useful for problem-solving.
